

## “Outdoor / NEMA Solutions”

### Model 1260-00

The model 1260-00 Enclosure is specifically designed for the Network Chemistry Sensor and permits the sensor to be secured in a locking, aluminum, NEMA 4 type box with sealed ports for Ethernet input and output. Included are two high gain antennas covering both the 2.4 GHz and 5.2 GHz ranges.

### Specifications:

- Designed for surface mounting on indoor/outdoor walls or mast mount, where secure, weather proof installation is required
- Construction: 16 gauge aluminum, NEMA 4 type construction
- Two 5 dBi high gain antennas covering both 2.4 GHz and 5.2 GHz bands
- Two sealed RJ-45 Ethernet connectors
- Size: 9" x 10.25" x 2.5" deep
- Weight: 6lbs

### Model 1260-00 Includes:

- (2) U-Bolts to attach to 2" pole
- Mounting Screws
- Mounting Instructions
