

Model 1260/3500e-SKIN

Skin for Cisco WAPs

Oberon's 1260/3500e-SKIN allows you to customize the appearance of the popular Cisco 1260 and 3500e series wireless access point. The skin is made from an RF transparent plastic, and can be attached directly to the Cisco 1260 or 3500e. The 1260/3500e-SKIN allows you to customize the color of the access point to partially conceal the access point or compliment interior color schemes.

Oberon Model 1260/3500e-SKIN shown with Cisco 1260 wireless access point (not included)
